- 44. "Excuse me" is that your radio? Asked the boy.
- 45. The owner of the house was out. The house was in Libya Street.

**ANSWER**

41	42	43	44	45

**SECTION E: COMPREHENSION**

Read the following passage carefully and then answer questions 46-50

Bees are very interesting creature which can hurt and help us. They often travel together in big swarms or group of bees. If you disturb a swarm or if you attack their nest they will sting you. Bee stings are very painful and dangerous. If you receive more than about one hundred stings you might die.

But bees are also very useful insects. They produce honey which is a delicious and healthy food. Bees like to build their nest in dark places such as holes in tree trunks or in dark corners. They lay their eggs in honey comb in their nest. The honey is taken from the honeycomb.

Some people are bee “farmers”. They put beehives in trees or in gardens where the bees produce their honey. The farmers visit the beehives from time to time and take out the honey. It is very dangerous work. The farmers use smoke to confuse the bees. They also wear a helmet and gloves to protect them against bee stings.

**QUESTIONS**

46. What does the word “swarm” in line 2 mean?

- a) A nest of bees
- b) A large group of bees
- c) Bee stings
