GEOGRAPHY GRD V

NAME: _____ STREAM _____ DATE: _____

SECTION A: choose the most correct answer and write in the answer sheet provided

1. _____ is the blanket of gasses that surrounds the earth
(a) Oxygen (c) Clouds
(b) Atmosphere (d) Carbondioxide
2. A physical feature which is wide and flat elevated land is called;-
(a) Ridges (c) Plateau
(b) Cliff (d) Steep slopes
3. Water levels are low in rivers and dams during the _____
(a) Rain season (b) Gold season (c) Dry season (d) Short rains
4. Agriculture and trade are examples of _____
(a) Tourist attractions (c) Exploitation activities
(b) Economic activities (d) Capitalist activities
5. The highest point of a mountain is known as _____
(a) Saddle (c) Plain
(b) Summit (d) Depression
6. When magma is poured on the surface of the earth, it is called _____
(a) Magma (b) Vent (c) Lava (d) Layers
7. _____ generate electric power for different uses _____
(a) Transportation (c) Mtera dam
(b) Sufficient rainfall (d) Fishing
8. Raw material and finished good are some time called _____
(a) Input and out put (c) Fruits and juice
(b) Cotton and clothes (d) None of the above
9. _____ is a place where raw materials are processed into finishing goods
(a) Industry (b) Heaven (c) Tanga (d) America
10. One of the following is not a renewable source of energy.
(a) Hydro-electric power (c) Solar energy
(b) Coal (d) Biomass
11. A crop that is used to make cloth and its seed produce cooking oil is known as _____
(a) Coconut (c) Tobacco
(b) Coffee (d) Cotton

12. There are _____ types of mountains according to their mode formation
 (a) Five (b) Two (c) Four (d) Six
13. _____ can be interpreted by contour lines.
 (a) Physical features (c) Settlements
 (b) Abiotic features
 (d) People
14. One of the following is not a significance of rift valley
 (a) Water bodies (c) Agriculture
 (b) Tourism (d) Disasters
15. Contour lines are measured in _____
 (a) Meters (c) Kilometers
 (b) Centimeters (d) Miles
16. The highest mountain in Africa is _____
 (a) Evarist (c) Kilimanjaro
 (b) Himalayas Mountains (d) Elgon
17. Geographically East Africa is made up of _____ countries.
 (a) Four (b) Three (c) Five (d) Six
18. At the sea level the contours are marked with _____
 (a) Om (b) 50m (c) 100m (d) 200m

 (a) Tanzania (b) Uganda (c) Kenya (d) Somalia
20. The widest lake in East Africa is lake _____
 (a) Tanganyika (c) Victoria
 (b) Turkana (d) Kivu

SECTION B: MATCHING ITEMS

LIST A	LIST B
21. The industry that deals with agricultural products	A. Advantage of plants
22. Creation of employment opportunities	B. Oktas
23. Shortage of timber and post	C. Methods of fishing
24. Hook and line, Harpooning and Potting	D. Fights and supports fire
25. Crop production and livestock keeping	E. Processing industries
26. Compressional force	F. Rain gauge
27. Cloud cover	G. Volcanic mountain
28. Maintenance of health environment	H. Advantage of Animals
29. Advantage of Air	I. Agriculture
30. Attract of rainfall	J. Negative effects of forest
	K. Rift valley
	L. Manufacturing industry
	M. Isohyets

List A	21	22	23	24	25	26	27	28	29	30
List B										

SECTION C: TRUE AND FALSE

- 31. An antelope is a tertiary consumer _____
- 32. Recycling should be done in order to conserve our environment _____
- 33. A relationship between two different species or organisms that depend on each other is called couple relationship _____
- 34. Drilling is the process of making the soil loose and filling with air space _____
- 35. Bees and wind play a great role in pollination process _____
- 36. Bacteria and fungi are examples of decomposers _____
- 37. Animals that feed on the plants are called Herbivores _____
- 38. Every living organism need energy _____
- 39. Since all living organisms depend on plants for food directly or indirectly, plants are referred to as primary consumer _____
- 40. Symbiosis are organisms that are not able to manufacture their own food _____

SECTION D: FILL IN THE BLANKS

- 41. _____ are animals that feed on dead and decaying matters.
- 42. The kind of animals that eat all types of food are known as _____
- 43. Animals that kills and eats other animal are called _____
- 44. A sequence or series of who eats who in the environment is known as _____

- 45. The process of manufacturing their own food in plants is known as _____
Mention two main components of the environment
- 46. _____
- 47. _____

Difine the following terms

- 48. Environment _____

- 49. Interdependence _____

- 50. Symbiosis _____
